

journal of womens history

Journal of Women's History is a leading academic periodical that focuses on the historical experiences and contributions of women throughout various times and cultures. Established in 1989, this journal serves as an essential resource for scholars, students, and anyone interested in the multifaceted narratives of women's lives. It not only highlights women's roles in history but also critically examines the ideologies and structures that have influenced their experiences. This article delves into the significance of the Journal of Women's History, its contributions to scholarship, its editorial practices, and the broader impact it has on gender studies and historical research.

Historical Context of Women's Studies

The Rise of Women's History as a Discipline

The emergence of women's history as an academic field in the late 20th century marked a critical shift in historical scholarship. Before this development, women's roles were often marginalized or entirely omitted from mainstream historical narratives. The second wave of feminism in the 1960s and 1970s played a pivotal role in bringing attention to these gaps. Scholars began to reassess historical events through a gendered lens, focusing on how societal norms and structures shaped women's lives.

- Key Milestones:
- 1970s: The establishment of women's studies programs in universities.
- 1980s: The creation of the first dedicated journals focusing on women's history, including the Journal of Women's History.
- 1990s onwards: Increased intersectionality in research, examining how race, class, and sexuality intertwine with gender.

Founding of the Journal of Women's History

The Journal of Women's History was founded by a group of scholars committed to advancing the study of women's history. The publication aimed to provide a platform for research that highlighted women's experiences, challenges, and achievements across different cultures and historical periods. The journal has since become a crucial source for academic articles, book reviews, and critical essays.

- Founders:
- The founding editors were influential figures in women's studies, contributing significantly to the field.
- The journal is affiliated with the Coordinating Council for Women in History, fostering collaboration among scholars.

Editorial Practices and Contributions

Peer Review Process

The journal employs a rigorous peer review process to ensure the quality and scholarly integrity of published research. Submissions are evaluated by experts in the field, focusing on the originality, significance, and methodological rigor of the work.

1. Submission Guidelines:
