The Power of Words

Practical Steps to Change Your Words

Changing your words begins with self-awareness. Here are some practical steps to help

you start transforming your language and, consequently, your life:

1. Identify Negative Patterns

The first step in changing your words is to recognize the negative patterns in your speech. Pay attention to the phrases you commonly use, both in conversation with others and in your internal dialogue.

- Common Negative Phrases:
- "I can't do this."
- "I'm not good enough."
- "This will never work out."

By identifying these phrases, you create a starting point for change.

2. Replace Negativity with Positivity

Once you've identified negative phrases, start replacing them with positive affirmations. For instance:

- Instead of saying, "I can't do this," try, "I can learn to do this."
- Replace "I'm not good enough" with "I am enough just as I am."
- Change "This will never work out" to "I will find a way to make this work."

Writing these affirmations down and repeating them can reinforce the positive changes in your thinking.

3. Practice Gratitude

Gratitude is a powerful tool that can change your perspective and the words you use. By focusing on what you are thankful for, you shift your mindset from negativity to appreciation.

Ways to Practice Gratitude:

- Keep a gratitude journal and write down three things you are grateful for each day.
- Express gratitude verbally to others.
- Reflect on positive experiences before going to bed.

4. Speak Life into Others

Just as your words can affect your own life, they can also impact those around you. Meyer emphasizes the importance of speaking life, encouragement, and positivity into the lives of

others.

Ways to Speak Life:

- Compliment someone genuinely.
- Offer words of encouragement during tough times.
- Share positive feedback in your daily interactions.

5. Mindfulness in Communication

Being mindful of what you say and how you say it is crucial. Take time to think before speaking, considering the implications of your words. This practice can lead to more meaningful conversations and reduce misunderstandings.

The Spiritual Aspect of Words

Meyer's teachings are deeply rooted in her Christian faith, and she believes that our words should align with a higher purpose. She emphasizes the importance of speaking in a way that reflects love, kindness, and integrity.

Speaking from a Faith Perspective

- Pray for Guidance: Seek divine help in choosing your words wisely.
- Scriptural Affirmations: Use verses from the Bible as affirmations to reinforce positive thinking.
- Engage in Community: Surround yourself with like-minded individuals who uplift and encourage one another.

Overcoming Resistance to Change

1. Acknowledge Your Fears

Fear of change is a natural response. Acknowledge your fears and the reasons behind them. This self-awareness can help you confront and overcome the obstacles in your path.

Change doesn't have to happen overnight. Start with small adjustments in your language. For example, commit to using positive affirmations for just one week and gradually incorporate more changes as you become comfortable.
