Setting Up Your Keystone Cougar Xlite

Setting up your Cougar Xlite is a straightforward process if you follow the owner's manual carefully. Here are the basic steps to ensure a proper setup:

Pre-Setup Checklist

Before you begin, make sure you have the following:

- Proper towing vehicle with adequate towing capacity
- Trailer brake controller

- Leveling blocks
- Chocks for the wheels
- Electrical cord and water hose
- Waste disposal supplies

Setup Steps

1. Park on Level Ground: Choose a flat, stable surface to park your trailer. Use leveling blocks if necessary.
2. Unhitch from Vehicle: Carefully unhitch the trailer from your towing vehicle, ensuring stability.
3. Level the Trailer: Use a bubble level to check if the trailer is level. Adjust with leveling blocks as needed.
4. Secure the Trailer: Place wheel chocks around the tires to prevent rolling.
5. Connect Utilities:
 - Electrical: Connect the power cord to the external power source.
 - Water: Attach the fresh water hose to the city water connection.
 - Sewer: Set up the sewer hose for waste disposal.
6. Extend Slide-Outs: If your model has slide-outs, extend them according to the instructions found in the owner's manual.
7. Set Up Outdoor Equipment: Unpack and set up any outdoor furniture or equipment you plan to use.
