Kotor 2 Influence Guide is an essential tool for players navigating the complex social dynamics of "Star Wars: Knights of the Old Republic II - The Sith Lords." Influence is a critical mechanic in the game, affecting your relationships with companions and ultimately impacting the storyline. This guide will delve into the nuances of influence, how it can be gained or lost, and strategies to maximize your companions' loyalty and effectiveness.

Understanding Influence in Kotor 2

Influence is a measure of how much your companions trust and respect you. It plays a significant role in shaping character arcs and unlocking unique dialogue options, quests, and abilities. The higher your influence with a companion, the more likely they are to support your choices and align with your goals.

The Importance of Influence

1. **Character Development:** Influence directly affects your companions' growth, unlocking new skills and powers.
2. **Story Outcomes:** Certain companions may leave the party if influence is too low, while others may reveal their backstories or join you in critical moments if your influence is high.
3. **Alignment:** Your actions can shift a companion's alignment (Light Side vs. Dark Side), which can influence their development and abilities.

How to Gain Influence

Gaining influence with your companions is essential for developing strong relationships and maximizing their potential. Here are several methods to achieve this:

1. Dialogue Choices

Your dialogue choices significantly impact your influence levels. Each companion has specific preferences regarding what they value. Here are key points to remember:

- **Positive Responses:** Agreeing with a companion's ethical stance or supporting their decisions increases influence.

- Neutral Responses: Avoiding controversial topics or being non-committal may not affect influence positively or negatively.
- Negative Responses: Disagreeing with or criticizing a companion can decrease influence.

2. Actions in the Field

Your actions during gameplay can also affect influence. Consider the following:

- Combat Style: If a companion values honor, avoiding unnecessary killings or showing mercy can enhance influence.
- Decision Making: Choices that align with a companion's morals will increase influence. For instance, choosing to save innocents or uphold justice will resonate with more noble characters.

3. Completing Companion Quests

Each companion has personal quests that, when completed, can significantly boost your influence. Make it a priority to engage in these quests:

- Companion Backgrounds: Learning about and addressing your companion's past can deepen your bond.
- Resolve Conflicts: Helping companions overcome personal challenges or enemies raises influence.

How to Lose Influence

While gaining influence is vital, losing it can be just as impactful. Understanding how influence can be lost is crucial for maintaining relationships.

1. Poor Dialogue Choices

Similar to gaining influence, your dialogue can also lead to its decline:

- Disagreement: Regularly opposing a companion's views will result in lost influence.
- Sarcasm or Mockery: Using humor at a companion's expense can be detrimental to your relationship.

2. Negative Actions

Actions in the game can also lead to decreased influence:

- Brutality in Combat: Excessively violent actions, especially those contradicting a companion's values, can harm influence.
- Selfish Decisions: Making choices solely for personal gain rather than considering the party's morals can alienate companions.

3. Ignoring Companion Needs

Neglecting to engage with companions can also result in lost influence:

- Not Engaging in Conversations: Failing to communicate and share experiences may signal disinterest.
- Avoiding Companion Quests: Ignoring their personal missions can create distance.

Maximizing Influence: Strategies and Tips

To make the most of your companions' influence levels, consider the following strategies:

1. Know Your Companions

Understanding each companion's personality and values is essential. Here's how you can do this:

- Research Each Character: Take time to learn about their backgrounds, values, and what actions resonate with them.
