What is Walk Away the Pounds Express?

Walk Away the Pounds Express is a walking-based fitness program that incorporates simple, low-impact movements that can be done in the comfort of your own home. The program is designed to promote cardiovascular health, improve overall fitness, and assist with weight loss. Leslie Sansone's philosophy revolves around the idea that walking is one of the best forms of exercise, as it is accessible to everyone and can be easily modified to fit individual needs.

Components of the Program

The Walk Away the Pounds Express program is structured around several key components:

- Walking Workouts:** The primary focus of the program is walking, which is supplemented with arm movements, leg lifts, and other simple exercises to enhance calorie burn and muscle engagement.
- Variety of Workouts:** The program offers a variety of workout lengths and intensities, making it easy to fit into any schedule. Workouts typically range from 15 to 60 minutes.
- Visual and Instructional Guidance:** Each workout features Leslie leading participants through the routines, providing motivation, encouragement, and clear instructions, which

is especially helpful for beginners.

4. Music and Energy: The workouts are set to upbeat music that energizes participants and makes the experience enjoyable.

Benefits of Walk Away the Pounds Express

Participating in the Walk Away the Pounds Express program offers numerous benefits:

1. Accessibility

- No Equipment Required: The program requires no specialized equipment, making it accessible to anyone, regardless of their financial situation or access to a gym.
- Home-Based Workouts: Participants can complete the routines in the comfort of their own homes, eliminating the need for commuting to a gym.

2. Low Impact

- Joint-Friendly: The low-impact nature of the workouts makes them suitable for people with joint issues or those recovering from injury.
- Customizable Intensity: Individuals can adjust their pace and intensity based on their fitness levels, allowing for a personalized workout experience.

3. Weight Loss and Fitness Improvement

- Calorie Burning: Regular walking can help burn calories and contribute to weight loss when combined with a balanced diet.
- Cardiovascular Health: Walking is an effective way to improve cardiovascular fitness, which can lower the risk of heart disease and other health issues.

4. Mood Enhancement

- Endorphin Release: Physical activity, including walking, triggers the release of endorphins, which can improve mood and reduce feelings of stress and anxiety.
- Community and Support: Many participants find motivation and encouragement from others in the Walk Away the Pounds community, whether through online forums or local groups.

How to Get Started with Walk Away the Pounds Express

Starting the Walk Away the Pounds Express program is straightforward. Here's how to get going:

1. Gather Your Materials

- Choose a Workout DVD or Streaming Service: The workouts are available on DVD or through various streaming services, making it easy to access them.
- Wear Comfortable Clothing: Opt for breathable, flexible workout attire and supportive footwear to ensure comfort during your workouts.

2. Set a Schedule

- Consistency is Key: Aim to schedule workouts at least three to five times a week for optimal results.
- Start with Shorter Workouts: If you're new to exercise, begin with shorter workouts and gradually increase the duration as you build stamina.

3. Warm Up and Cool Down

- Warm-Up: Always start with a brief warm-up to prepare your body for exercise. This can include light walking or stretching.
- Cool Down: End each session with a cool-down period to help your body recover. Gentle stretching is beneficial post-workout.

4. Track Your Progress

- Keep a Journal: Document your workouts, including duration, intensity, and how you felt during each session. This can help you stay motivated and see your progress over time.
- Set Goals: Establish short-term and long-term fitness goals to maintain focus and encouragement.
