The following sections will guide readers through the primary protagonists, key antagonists, supporting cast, and notable minor characters, providing a structured and informative resource. Below is the table of contents to navigate through the detailed list of characters in the thief.

- Main Protagonists in Thief
- Key Antagonists and Villains
- Supporting Characters and Allies
- Notable Minor Characters

Main Protagonists in Thief

The main protagonists in the Thief series are pivotal to the narrative and gameplay experience. These characters are typically the ones the player controls or follows closely throughout the game, embodying the themes of stealth, strategy, and survival. The list of characters in the thief prominently features Garrett, the legendary master thief whose skills, personality, and motivations drive the core story. In addition to Garrett, other protagonists appear in various installments, each adding layers to the overarching plot and enriching the game's world.

Garrett – The Master Thief

Garrett is the central protagonist and the titular thief in the series. Known for his silent agility and exceptional stealth abilities, he operates in a dark, atmospheric city filled with danger and intrigue. Garrett's character is complex, often portrayed as morally ambiguous, driven by personal codes

rather than traditional notions of good and evil. His expertise in lockpicking, stealth tactics, and strategic thinking makes him the quintessential thief. Throughout the series, Garrett's interactions with other characters reveal his cunning nature and deep understanding of the city's underbelly.

Other Protagonistic Figures

While Garrett remains the primary focus, some Thief games introduce additional protagonists or playable characters. These figures sometimes serve as allies or present alternate perspectives within the storyline. Their inclusion expands the narrative and provides players with diverse experiences regarding stealth and exploration. Each protagonist typically possesses unique skills or backstories that complement Garrett's overarching quest.

Key Antagonists and Villains

The list of characters in the thief would be incomplete without an examination of the key antagonists who challenge Garrett and create conflict within the story. These villains play crucial roles in shaping the narrative tension, often representing corrupt authorities, supernatural threats, or rival factions. Their motivations and actions provide obstacles that test Garrett's abilities and resolve throughout the game.

The Keepers – Secretive Enforcers

The Keepers are a secretive order that enforces balance and order in the city. Although not always outright villains, they often stand in opposition to Garrett's objectives. Their mysterious nature and strict codes make them formidable adversaries. The Keepers' influence permeates the game's world, adding layers of intrigue and moral complexity to the conflict.

Vlad – The Ruthless Crime Lord

Vlad serves as one of the primary antagonists in the original Thief game. As a powerful crime lord, he controls vast portions of the city's underworld and frequently clashes with Garrett. Vlad's ruthless tactics and ambition make him a dangerous foe who embodies the chaotic and violent elements of the city's criminal landscape. His presence adds a gritty realism and urgency to the storyline.

The Trickster – Supernatural Threat

The Trickster is an enigmatic and malevolent supernatural entity featured

prominently in the Thief series. This character manipulates events behind the scenes and challenges Garrett not only physically but psychologically. The Trickster's influence introduces elements of horror and fantasy, blending with the game's noir atmosphere. His role as a villain deepens the narrative complexity by intertwining supernatural themes with the stealth gameplay.

Supporting Characters and Allies

Supporting characters and allies form an essential part of the list of characters in the thief, offering assistance, information, and companionship to Garrett throughout his missions. These figures enrich the narrative by providing context, emotional depth, and practical aid. Their relationships with Garrett vary from friendship to professional alliances, often influencing the direction and outcome of the story.

Basso – The Fence and Informant

Basso is a recurring ally who acts as a fence for stolen goods and a source of valuable information. His network and connections are indispensable for Garrett's operations, providing access to black-market items and critical intelligence. Basso's character is marked by pragmatism and streetwise savvy, making him a reliable yet cautious partner.

Errol – The Loyal Bodyguard

Errol serves as Garrett's bodyguard and companion in later installments of the series. His loyalty and combat skills complement Garrett's stealthy approach, and his presence adds a dynamic layer to gameplay and storytelling. Errol's interactions with Garrett reveal elements of trust and camaraderie, contrasting with the often solitary life of a thief.

Katrina – The Keeper Ally

Katrina is a member of the Keepers who occasionally aids Garrett, offering a nuanced perspective on their organization. Her character bridges the gap between the Keepers and Garrett, introducing themes of conflict, loyalty, and redemption. Katrina's role enriches the narrative by highlighting internal divisions and moral ambiguity within the Keepers.

Notable Minor Characters

Beyond the protagonists, antagonists, and primary allies, the list of characters in the thief includes numerous minor characters who contribute to the atmosphere and storyline. These individuals often populate the city's

streets, representing various social classes, professions, and factions. While their roles may be limited in scope, they add authenticity and depth to the game's world.

Townfolk and Merchants

The townsfolk and merchants are everyday characters that populate the city. They provide background ambiance and occasionally interact with Garrett, offering quests, information, or obstacles. Their presence helps to create a living, breathing environment that feels immersive and believable.

Guards and City Watch

Guards and the city watch serve as common adversaries in the game, enforcing laws and protecting valuable assets. Their patrols and vigilance require players to employ stealth and cunning to avoid detection. These characters embody the institutional authority that Garrett often seeks to evade or undermine.

Rival Thieves and Mercenaries

Occasionally, Garrett encounters rival thieves or mercenaries competing for the same objectives. These characters introduce additional challenges and rivalries, emphasizing the competitive nature of the thief's world. Their interactions with Garrett can vary from hostile confrontations to uneasy alliances.

- Protagonists: Garrett, additional playable figures
- Antagonists: The Keepers, Vlad, The Trickster
- Allies: Basso, Errol, Katrina
- Minor Characters: Townsfolk, guards, rival thieves
