Sample Daily Workout Routine

- Warm-up: 5-10 minutes of light cardio (e.g., walking or jumping jacks)
- Strength training: 3 sets of 10-15 push-ups, squats, and pull-ups

Hydration and Detoxification

Adequate water intake was another key aspect of his nutritional philosophy. LaLanne believed hydration aids digestion, nutrient absorption, and the removal of toxins from the body.

- Breakfast: Fresh fruit smoothie with leafy greens and protein powder
- Lunch: Mixed vegetable salad with lean protein such as grilled chicken or fish
