1. Boiling

- Use a large pot to ensure the pasta has enough space to cook evenly.
- Add plenty of salt to the water (about 1-2 tablespoons per gallon) to enhance flavor.
- Bring the water to a rolling boil before adding pasta.
- Stir occasionally to prevent sticking.

2. Al Dente Cooking

- Check the pasta a minute or two before the package instructions suggest.
- It should be firm to the bite, not mushy.
- Reserve some pasta water before draining to adjust the sauce consistency later.

3. Saucing

- Combine the pasta with sauce in a pan over low heat for a minute to allow the flavors to meld.
- Use reserved pasta water to thin out the sauce if needed.
