Step-by-Step Assembly Instructions

With everything prepared, it's time to begin assembling your portable wardrobe. Follow these steps carefully:

Step 1: Assemble the Frame

1. Identify the Frame Parts: Locate the vertical and horizontal frame pieces.
2. Connect the Verticals: Start by attaching the vertical poles to the base using the connectors

provided. Make sure they are secured tightly.

3. Add Horizontal Supports: Insert the horizontal bars between the vertical poles at the desired height. These will provide stability and can be adjusted based on your needs.

4. Secure the Frame: Ensure all connections are tight and the frame is sturdy. Use a level to check that everything is even.

Step 2: Install the Hanging Rod

1. Position the Rod: Decide where you want the hanging rod. Typically, this is placed close to the top for longer garments.

2. Insert the Rod: Slide the rod into the designated connectors or brackets. Ensure it is firmly in place and can support the weight of hanging clothes.

Step 3: Attach the Shelves

1. Identify Shelf Placement: Determine how many shelves you will need and their spacing.

2. Install the Shelves: Slide the shelves onto the frame, ensuring they fit securely in place. If your model has adjustable shelves, you can customize their height according to your storage needs.

Step 4: Add the Cover

1. Locate the Cover: Unfold the fabric or plastic cover and identify the front and back.

2. Fit the Cover: Drape the cover over the assembled frame. Make sure the openings align with the hanging rod and shelves.

3. Secure the Cover: If your wardrobe has Velcro or zippers, fasten them to keep the cover in place.

Step 5: Final Touches

1. Check Stability: Gently shake the wardrobe to ensure everything is secured and stable.
2. Organize Your Items: Begin placing clothes and accessories in your portable wardrobe. Utilize the shelves for shoes and folded items and the hanging rod for dresses, coats, and other garments.

Maintenance and Care

To ensure your portable wardrobe lasts, follow these maintenance tips:

1. Regular Checks: Periodically inspect the connections and tighten any loose screws or connectors.
2. Clean the Cover: If the cover gets dirty, follow the manufacturer's instructions for cleaning. Most fabric covers are removable and machine washable.
3. Avoid Overloading: Do not exceed the weight limit specified by the manufacturer, as this can compromise the structure and stability of the wardrobe.
