What Should We Expect in Marriage Counseling?

Couples entering marriage counseling can expect a structured environment where both partners can express their thoughts and feelings. The therapist will facilitate discussions, help identify patterns of behavior, and guide couples toward healthier communication techniques. Initially, sessions may focus on understanding the couple's history and the issues they face.

How Long Does Marriage Counseling Take?

The duration of marriage counseling can vary greatly depending on the couple's specific issues and goals. Some couples may see improvement in a few sessions, while others may require several months of ongoing therapy. On average, couples may attend therapy for 12 to 20 sessions, but this can differ based on individual circumstances.

Is Marriage Counseling Just for Couples in Crisis?

While many couples seek counseling during a crisis, marriage counseling is not solely for those in severe distress. Couples can benefit from counseling at any stage of their relationship, whether they are newlyweds, experiencing minor disagreements, or looking to strengthen their bond.

What Questions Should We Ask Our Therapist?

3. Problem-solving: The therapist may introduce techniques or exercises to help the couple address their challenges.
4. Homework: Couples may be given exercises or tasks to complete before the next session to reinforce learning and growth.

Types of Techniques Used in Marriage Counseling

Therapists may use various techniques during sessions, including:

- Emotionally Focused Therapy (EFT): Focuses on identifying and changing emotional responses.
- Cognitive Behavioral Therapy (CBT): Addresses negative thought patterns that affect behavior and emotions.
