Historical Context of Mother Courage and Her Children

The play is set during the Thirty Years' War (1618-1648), a prolonged and devastating conflict in Central Europe that involved numerous powers and resulted in widespread destruction. Brecht wrote the play in exile during World War II, drawing parallels between the historical war and the contemporary global conflict. This setting allows the playwright to comment on the cyclical nature of war and its consequences for ordinary people.

The Thirty Years' War and Its Impact

Brecht's World War II Exile and Writing Process

Bertolt Brecht wrote *Mother Courage and Her Children* while fleeing Nazi Germany and living in exile. War and Capitalism

One of the central themes in *Mother Courage and Her Children* is the interplay between war and economic gain. The Futility of War

Brecht emphasizes the futility and cyclical nature of war by depicting its repeated devastation on Mother Courage and her family. Her Children

The children of Mother Courage—Eilif, Swiss Cheese, and Kattrin—represent different facets of innocence, loyalty, and victimhood in wartime.
