Getting Started with Your Timer

Before diving into the specifics of setup and programming, it is important to familiarize yourself with the components of the My Touch Smart Timer Model 26898.

Unboxing the Timer

When you first receive your timer, you should find the following items in the box:

- My Touch Smart Timer Model 26898 unit
- User manual

- Mounting hardware (if applicable)
- Warranty information

Ensure that all components are present before proceeding.

Initial Setup

Setting up your timer is a straightforward process. Follow these steps:

1. Choose a Location: Select a suitable outlet for your timer. Ensure it is easily accessible for programming and that it can handle the load of your devices.
2. Plug in the Timer: Insert the timer into the wall outlet. The display should light up, indicating that it is receiving power.
3. Connect Your Device: Plug the appliance or device you want to control into the timer socket.
4. Set the Current Time: Press the 'Clock' button and use the '+' or '-' buttons to adjust the time. Make sure to set AM or PM correctly, depending on your current time.

Programming the Timer

One of the standout features of the My Touch Smart Timer Model 26898 is its programming options. You can easily set multiple on/off schedules to fit your lifestyle.

Daily and Weekly Programming

To program your timer for daily or weekly use, follow these steps:

1. Select Program Mode: Press the 'Program' button until you see the 'P1' indicator on the display.
2. Set the On Time: Use the '+' and '-' buttons to set the desired time for the device to turn on. Confirm your selection by pressing the 'Program' button again.
3. Set the Off Time: Next, set the time for the device to turn off using the same method.
4. Repeat for Additional Programs: You can create up to 7 different programs (P1-P7). Simply repeat the process for each program.
5. Activate Programs: Once all programs are set, ensure that the timer is in 'Auto' mode to activate them.

Using Randomized Settings for Security

For added security, especially when you are away from home, you can use the random feature. This simulates occupancy by turning lights on and off at varying times.

1. Select Random Mode: Press the 'Random' button until the indicator appears on the display.
2. Set the Range: You can specify a time range for the random settings. This feature keeps your home looking occupied and deters potential intruders.

Troubleshooting Common Issues

Even the best devices can face issues from time to time. Below are some common problems users may encounter with the My Touch Smart Timer Model 26898 and their solutions.

Timer Not Turning On

- Check Power Supply: Ensure the timer is plugged into a functioning outlet.
- Verify Settings: Make sure that the timer is set to 'Auto' mode and that the current time is correctly set.

Incorrect Time Display

- Reset the Timer: Unplug the timer for a few seconds and then plug it back in to reset it.
- Reconfigure Time: Follow the steps to set the current time again.

Programs Not Activating

- Check Program Settings: Ensure that the programs are set correctly and that the timer is in 'Auto' mode.
- Test with a Different Device: Plug in a different appliance to rule out a device issue.
