Background: The Prelude to Rescue

The Rise of Nazism

The late 1930s were characterized by the rise of Adolf Hitler and the Nazi regime, which sought to establish a totalitarian state in Germany and expand its influence throughout Europe. The anti-Semitic policies enacted by the Nazis led to widespread persecution of Jewish people, culminating in the horrific events of the Holocaust. As tensions escalated, many Jewish families in central Europe feared for their safety and sought ways to escape.

The Situation in Czechoslovakia

Czechoslovakia, particularly after the Munich Agreement in 1938, became increasingly unstable. The agreement allowed Nazi Germany to annex certain areas of the country, and as the threat grew, many Jewish families found themselves in peril. By 1939, the situation had become critical, with many parents desperate to save their children from the impending doom.
