Understanding the Features of the Oral B Smart Clean 360

The Oral B Smart Clean 360 is packed with features that enhance your brushing experience. Here are some key functionalities:

Brushing Modes

The toothbrush offers several brushing modes tailored to different needs:

- Daily Clean: For everyday cleaning.
- Sensitive: A gentler option for sensitive gums.
- Whitening: Helps to remove surface stains.
- Deep Clean: Provides a thorough clean for hard-to-reach areas.

Smart Pressure Sensor

The built-in pressure sensor alerts you when you are brushing too hard, preventing gum damage and ensuring a gentle yet effective clean.

Timer and QuadPacer

The timer ensures you brush for the recommended two minutes, while the QuadPacer signals you to switch areas every 30 seconds for an even clean.

Using Your Oral B Smart Clean 360

Now that your toothbrush is set up, let's explore how to use it effectively.

Brushing Technique

1. Apply a pea-sized amount of fluoride toothpaste to the brush head.
2. Turn on the toothbrush and select your desired brushing mode.
3. Place the brush head against your teeth at a 45-degree angle.
4. Gently move the brush head in small circular motions, allowing the bristles to sweep across the tooth surfaces.
5. Spend at least 30 seconds on each quadrant of your mouth.

Post-Brushing Care

1. Rinse the brush head thoroughly under running water to remove toothpaste residue.
2. Store the toothbrush in an upright position to allow it to air dry.
3. Replace the brush head every three months or sooner if bristles are frayed.

Maintenance of Your Oral B Smart Clean 360

Proper maintenance of your toothbrush is crucial for its longevity and performance. Here are some tips:

Cleaning the Toothbrush

- Regularly wipe the handle and charger with a damp cloth.
- Avoid submerging the toothbrush in water, as it is not waterproof.

Replacing Brush Heads

- Monitor the wear of the bristles. If they appear frayed or discolored, it's time for a replacement.
- Purchase compatible Oral B brush heads to ensure optimal performance.

Troubleshooting Common Issues

Even with regular use, you may encounter some issues with your Oral B Smart Clean 360. Here are common problems and their solutions:

Toothbrush Not Charging

- Ensure the charging station is plugged in and working.
- Check for any debris on the charging contacts of the toothbrush and clean if necessary.

Brush Head Not Turning

- Verify that the brush head is securely attached.
- If the toothbrush is wet, allow it to dry before using it again.

Battery Life Issues

- If the battery does not hold charge, it may be time to replace the toothbrush.
- Contact Oral B customer service for assistance if it is still under warranty.
