Getting Started

Before diving into your adventure, it's essential to understand the basics.

Choosing Your Starter Pokemon

At the beginning of the game, you'll visit Professor Elm's lab in New Bark Town. Here, you will be able to choose one of three starter Pokemon:

1. Chikorita (Grass-type) - A good choice for beginners, but weak against many Gym Leaders.
2. Cyndaquil (Fire-type) - A solid offensive choice, effective against the first two Gyms.
3. Totodile (Water-type) - A balanced option with solid attack stats.

Each choice will impact your early game strategy, so consider how you want to build your team.

Understanding Your Pokedex

As you set off on your journey, your Pokedex will be your key tool. It is a digital encyclopedia that records data on every Pokemon you encounter. It is essential to:
