Getting Started with Pokémon X

Choosing Your Starter Pokémon

At the beginning of your journey, you will be faced with the exciting decision of choosing your first Pokémon. In Pokémon X, you have three options:

1. Chespin: A Grass-type Pokémon that evolves into Quilladin and then into Chesnaught. It's a sturdy choice with decent defense.
2. Fennekin: A Fire-type Pokémon that evolves into Braixen and finally into Delphox. It has strong special attack capabilities.
3. Froakie: A Water-type Pokémon that evolves into Frogadier and then into Greninja, known for its speed and versatility.

Consider your playstyle and the types of Pokémon you might encounter in the early game when making your decision.
