Types of Tenses

Before delving into the specifics of present and past tense worksheets, it's important to understand the different types of tenses. The English language primarily consists of three main tenses:

1. Present Tense

The present tense is used to describe actions happening currently or habitual actions. There are several forms of the present tense:

- Simple Present: Describes regular actions or universal truths (e.g., "She plays soccer.").
- Present Continuous (Progressive): Describes actions currently in progress (e.g., "She is playing soccer.").
- Present Perfect: Describes actions that occurred at an unspecified time in the past but are relevant

to the present (e.g., "She has played soccer.").

- Present Perfect Continuous: Describes actions that began in the past and continue into the present (e.g., "She has been playing soccer.").

2. Past Tense

The past tense is used to describe actions that have already happened. Similar to the present tense, it has several forms:

- Simple Past: Describes completed actions (e.g., "She played soccer.").

- Past Continuous (Progressive): Describes actions that were ongoing in the past (e.g., "She was playing soccer.").

- Past Perfect: Describes actions that were completed before a certain point in the past (e.g., "She had played soccer before the game started.").

- Past Perfect Continuous: Describes actions that were ongoing up to a certain point in the past (e.g., "She had been playing soccer for two hours before it started to rain.").
