

purell es8 dispenser instructions

Purell ES8 dispenser instructions are essential for anyone looking to maintain hygiene standards in their workplace or home. The Purell ES8 dispenser is designed to provide a convenient and effective way to dispense hand sanitizer, making it easier for individuals to practice proper hand hygiene. In this article, we will cover everything you need to know about using, maintaining, and troubleshooting the Purell ES8 dispenser, ensuring that it remains an effective tool in your sanitization efforts.

Overview of the Purell ES8 Dispenser

The Purell ES8 dispenser is a touch-free hand sanitizer dispenser that is ideal for high-traffic areas such as offices, schools, and healthcare facilities. It is designed to hold Purell Advanced Hand Sanitizer refills, ensuring that users can quickly and easily sanitize their hands.

Key Features of the Purell ES8 Dispenser

- **Touch-Free Operation:** The dispenser uses infrared sensor technology to provide a touch-free experience, reducing the risk of cross-contamination.
- **Large Capacity:** The ES8 dispenser holds 1200 mL of hand sanitizer, making it suitable for high-usage environments.
- **Versatile Mounting Options:** It can be wall-mounted or placed on a countertop, offering flexibility in placement.
- **Modern Design:** The sleek look fits well in any setting, whether it's an office, hospital, or restaurant.

Installation Instructions for the Purell ES8 Dispenser

Installing the Purell ES8 dispenser is a straightforward process that can be accomplished with minimal tools. Follow these steps to ensure a successful installation:

1. **Gather Required Tools:** You will need a drill, screwdriver, level, and measuring tape.
2. **Select Location:** Choose a location that is easily accessible and visible to everyone. A height of 42-48 inches from the floor is recommended for optimal use.
3. **Mark the Mounting Holes:** Hold the dispenser against the wall and use a level to ensure it is straight.

Mark the spots where the screws will go.

4. **Drill Holes:** Use a drill to make holes in the marked spots. Be sure to use the appropriate drill bit for the wall type (drywall, concrete, etc.).
5. **Attach the Mounting Bracket:** Secure the mounting bracket to the wall using the provided screws and anchors.
6. **Hang the Dispenser:** Align the back of the dispenser with the mounting bracket and press it into place until you hear a click.
7. **Check Stability:** Gently pull on the dispenser to ensure it is securely mounted.

Loading the Purell ES8 Dispenser

Once the dispenser is installed, the next step is to load it with hand sanitizer. Here's how to do it properly:

1. **Open the Dispenser:** Locate the unlock button at the bottom of the dispenser and press it to open the front cover.
2. **Remove Empty Cartridge:** If there is an empty cartridge inside, pull it out and dispose of it responsibly.
3. **Insert New Cartridge:** Take a new Purell ES8 refill cartridge and remove the protective seal. Align the cartridge with the dispenser slot and slide it in until it clicks into place.
4. **Close the Dispenser:** Gently push the front cover back into place until it locks securely.

Choosing the Right Purell Refill

It's important to use the correct type of refill for your Purell ES8 dispenser. Here are some options:

- Purell Advanced Hand Sanitizer: This is the most common refill and is effective against a wide range of germs.
- Purell Advanced Gel: A gel-based option that is ideal for heavy use and provides a moisturizing effect.
- Purell Advanced Foaming Hand Sanitizer: This is a foam option that is gentle on the skin and suitable for

frequent use.

Operating the Purell ES8 Dispenser

Using the Purell ES8 dispenser is simple and intuitive. Follow these steps for optimal usage:

1. **Stand in Front of the Dispenser:** Position yourself about 6 inches away from the dispenser.
2. **Activate the Sensor:** Move your hands under the dispenser. The infrared sensor will detect your hands and automatically dispense the sanitizer.
3. **Rub Hands Together:** Ensure that you rub your hands together for at least 20 seconds, covering all surfaces, including between the fingers and under the nails.
4. **Allow to Dry:** Let the sanitizer air dry completely before touching any surfaces.

Maintenance of the Purell ES8 Dispenser

To ensure the longevity and efficiency of your Purell ES8 dispenser, regular maintenance is essential. Here are some tips:

Regular Cleaning

- **Wipe Down the Exterior:** Use a damp cloth with mild soap to clean the outside of the dispenser regularly.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners or solvents, as these can damage the dispenser's finish.

Check for Refills

- **Monitor Levels:** Regularly check the sanitizer levels and replace cartridges as needed to ensure users always have access to hand sanitizer.

Troubleshooting Common Issues

If you encounter any issues with your Purell ES8 dispenser, refer to these common troubleshooting tips:

Dispenser Not Working

- Check Power Source: Ensure that the dispenser has fresh batteries installed or is properly plugged in.
- Sensor Obstruction: Make sure there are no objects blocking the sensor.

Insufficient Sanitizer Dispensed

- Check Cartridge Installation: Ensure that the refill cartridge is properly installed and not expired.
- Clean the Sensor Area: Dust or debris may be obstructing the sensor. Clean the area gently.

Conclusion

The Purell ES8 dispenser is an essential tool for promoting hand hygiene in various settings. By following these **Purell ES8 dispenser instructions**, you can ensure that the dispenser is installed correctly, loaded with the right refill, and maintained for optimal performance. Regular usage and maintenance of this dispenser will contribute significantly to the health and safety of your environment, ultimately reducing the spread of germs and illnesses.

Frequently Asked Questions

What are the initial steps to set up the Purell ES8 dispenser?

To set up the Purell ES8 dispenser, first remove it from the packaging. Next, locate the mounting hardware and choose a suitable location on the wall. Use the provided template to mark the drill holes, then secure the dispenser to the wall using screws.

How do I refill the Purell ES8 dispenser with hand sanitizer?

To refill the Purell ES8 dispenser, open the front cover by pressing the latch. Remove the empty cartridge and replace it with a new Purell ES8 refill cartridge. Ensure it clicks into place, then close the front cover securely.

What type of Purell refill cartridges are compatible with the ES8 dispenser?

The Purell ES8 dispenser is compatible with Purell 1200 mL refill cartridges, specifically designed for the ES8 system. Make sure to use only Purell brand refills to ensure optimal performance.

How can I troubleshoot the Purell ES8 dispenser if it is not dispensing sanitizer?

If the Purell ES8 dispenser is not dispensing sanitizer, check if the cartridge is properly installed. Ensure that the battery is charged and functional. If the problem persists, try cleaning the dispenser's nozzle and ensure there are no blockages.

What type of batteries does the Purell ES8 dispenser require?

The Purell ES8 dispenser requires 4 D-cell alkaline batteries for operation. Make sure to replace the batteries when the low battery indicator alerts you.

How do I clean the Purell ES8 dispenser?

To clean the Purell ES8 dispenser, use a damp cloth with mild soap. Avoid using abrasive cleaners. Clean the exterior and any visible areas, but do not immerse the dispenser in water or attempt to clean internal components.

Is the Purell ES8 dispenser suitable for outdoor use?

The Purell ES8 dispenser is designed primarily for indoor use. If used outdoors, ensure it is protected from extreme weather conditions to maintain its functionality and cleanliness.
