- Total Depravity: The belief that, due to original sin, humans are incapable of achieving salvation without divine grace.
- Unconditional Election: The idea that God has chosen certain individuals for salvation, not based on any merit of their own.
- Limited Atonement: The belief that Christ's atonement is only effective for the elect.
- Irresistible Grace: The notion that when God extends grace to the elect, they cannot resist it.

Social Structure and Community Life

- The Congregational Church: Local congregations were self-governing, which gave them significant autonomy. This structure fostered a sense of independence and community ownership.
- Moral Codes: Puritans adhered to strict moral codes, dictating behavior in both personal and communal life. Deviance from these codes was often met with severe punishment.
- Education: The Puritans placed a high value on education, believing that everyone should read the Bible. This led to the establishment of schools and colleges, including Harvard in 1636.

4. What role did religion play in Puritan life?

Religion permeated every aspect of Puritan life. Key points include:

- Sabbath Observance: Sundays were strictly reserved for worship and rest, with all forms of work and recreation prohibited.
- Family Worship: Families were expected to conduct worship services at home, reinforcing the importance of religion in everyday life.
- Public Punishment: The community enforced moral standards through public shaming and punishment, reflecting the belief that sin endangered the entire community.

Puritan Governance and Legal System

5. How did the Puritans govern themselves?

The Puritans established a unique form of governance that combined civil and religious authority. Important aspects include:

- Theocracy: Though not a theocracy in the strictest sense, Puritan leaders held significant power, and the church heavily influenced government policies.
- Town Meetings: Local governance was facilitated through town meetings, where male property owners could voice opinions and vote on issues, promoting a form of direct democracy.
- Legal Codes: The Puritans enacted laws based on their interpretation of the Bible. The "Blue Laws" contained regulations about moral behavior, such as prohibitions on dancing, swearing, and excessive drinking.

6. What were the consequences of Puritan governance?

The strict governance of the Puritans had several notable consequences:

- Intolerance of Dissent: Puritan communities often persecuted those who held differing beliefs, leading to notable events such as the Salem witch trials.
- Social Stratification: The emphasis on moral behavior and public reputation created a society where social class distinctions became pronounced.
