Gameplay Mechanics

Understanding the mechanics of Pyramid Plunder will help you navigate through the rooms effectively and avoid potential setbacks.

How to Play

- Upon entering the pyramid, you will find yourself in the first room.
- Interact with the sarcophagi to loot them for treasures. Each sarcophagus can be looted for a chance at various items.
- While looting, you will need to dodge traps. Some traps will require a quick escape, while others can be avoided entirely through careful movement.
- You can leave the room at any time to reset your progress, but be mindful of the time limit. Each room has a 60-second timer before it becomes inaccessible.

Experience Points

- You earn Thieving experience by successfully looting the sarcophagi and avoiding traps.

- The experience gained increases with each subsequent room, making it essential to progress as far as you can.
- Players can also gain experience by successfully escaping traps without being hit.

Strategies for Success

To maximize your efficiency and rewards while playing Pyramid Plunder, consider the following strategies:

Optimal Pathing

1. **Prioritize Sarcophagi:** Always loot the sarcophagi before attempting to escape traps. Looting takes precedence for maximizing experience.
2. **Avoiding Traps:** Familiarize yourself with trap locations in each room. Knowing where traps are positioned will allow you to navigate more efficiently.
3. **Time Management:** Keep an eye on the timer in each room. If you are running low on time, prioritize looting over searching for more sarcophagi.

Leveling Up Efficiently

- Focus on leveling your Thieving skill to access higher-level rooms faster. Utilize experience-boosting items such as the Ardougne Cloak or the Thieving skillcape.
- Players can also use the "Pyramid Plunder" activity at night for increased experience rates due to the fewer players participating.

Rewards and Loot

Pyramid Plunder offers a variety of rewards that can significantly boost your in-game wealth. Understanding what you can find will help you set your goals while playing.

Common Loot

- **Gold:** Loot from sarcophagi typically contains gold, which can be accumulated for use elsewhere.
- **Gilded Items:** Higher-level rooms yield gilded items, which can be sold for

a decent profit.

- Pharaoh's Sceptre: A rare reward from the last room, this item can teleport you to various locations and is invaluable for quick travel.

Storage and Selling Loot

- To maximize profit, consider storing rare items in your bank.
- Selling items on the Grand Exchange can yield significant returns, especially for rare drops from Pyramid Plunder.
