## 1. Pre-Reading Preparation

Before diving into a new text, Master Alden recommends a few preparatory steps:

- **Set a Purpose:** Determine why you are reading the text. Is it for pleasure, study, or research? Having a clear purpose will guide your reading approach.
- **Preview the Material:** Skim the text to get an overview. Look at headings, subheadings, images, and any highlighted or bolded terms. This will provide context and set expectations.

## 2. Active Reading Techniques

During the reading process, Master Alden emphasizes the importance of active engagement. Here are some techniques to employ:

- **Annotate:** Make notes in the margins, underline key phrases, and highlight important passages. This keeps you engaged and allows for easier review later.
- **Ask Questions:** Pose questions to yourself as you read. What is the author trying to convey? How does this relate to what I already know?
- **Summarize:** After each section or chapter, take a moment to summarize what you've just read in your own words. This reinforces understanding and retention.

## 3. Post-Reading Reflection

After completing the text, it's vital to reflect on the material. Master Alden suggests the following strategies:

- **Review Your Annotations:** Go through your notes and highlights to reinforce key ideas and concepts.
