Common Challenges in Reading Comprehension

Year 6 students may face several challenges when it comes to reading comprehension. Identifying these challenges is crucial in providing targeted support.

Difficulty with Complex Vocabulary

As texts become more advanced, unfamiliar vocabulary can hinder comprehension. Strategies to

address this include:

- Pre-teaching vocabulary: Introduce challenging words before reading the text.
- Using dictionaries: Encourage students to look up words they do not understand.

Students may struggle to understand texts if they lack prior knowledge on the subject matter. To combat this:

- Activate prior knowledge: Before reading, discuss what students already know about the topic.
- Provide context: Share relevant background information to enhance understanding.

Inability to Make Inferences

Making inferences is a higher-order skill that can be difficult for some students. To support inference-making:

- Model the process: Demonstrate how to make inferences using think-aloud strategies.
- Practice with guided questions: Provide questions that prompt students to think beyond the text.

Activities to Enhance Reading Comprehension

Incorporating engaging activities into reading instruction can motivate students and improve comprehension skills.

Reading Journals

Encourage students to keep a reading journal where they can:

- Record thoughts and feelings about the text.
- Make predictions about what might happen next.
- Summarize chapters or sections after reading.

Book Clubs

Establish book clubs where students can:

- Choose texts that interest them.
- Discuss their thoughts and opinions with peers.
- Engage in activities related to the book, such as character sketches or creative projects.

Creative Projects

Integrate creativity into comprehension activities by having students:

- Create visual representations of the text, such as posters or dioramas.
- Write alternative endings or sequels to stories.
- Develop a character diary from the perspective of a character in the story.
