Overview of the Revised Common Lectionary

The Revised Common Lectionary (RCL) is a three-year cycle of weekly scripture readings developed to promote a unified approach to scripture across many Christian denominations. It builds upon earlier lectionaries, such as the Roman Catholic Ordo Lectionum Missae and the Lutheran and Anglican traditions. The RCL aims to expose congregations to a broad spectrum of biblical literature over the course of three years, labeled as Year A, Year B, and Year C. This ecumenical resource enhances the depth and breadth of biblical engagement, making it a cornerstone for liturgical planning and theological reflection.

Historical Development

The RCL was developed in the late 20th century through ecumenical collaboration among Protestant, Roman Catholic, and Orthodox scholars and church leaders. Its revision sought to update language, improve textual selections, and ensure a balanced representation of Old Testament, New Testament, and Gospel readings. The adoption of the RCL across denominations has fostered a shared liturgical rhythm and facilitated common scriptural study and worship experiences.
