Early Life and Background

Robert Kiyosaki was born on April 8, 1947, in Hilo, Hawaii. He grew up in a middle-class family, which shaped his understanding of financial stability and the value of education. His father, a highly educated man with a Ph.D., worked as an educator and instilled in Kiyosaki the importance of formal education, while his mother, of Japanese descent, was a homemaker.

Kiyosaki's upbringing in a culturally diverse environment contributed to his unique perspective on money and education. Despite his father's academic achievements, Kiyosaki observed the limitations of traditional education in terms of financial literacy and wealth-building strategies.
