Roger Waters was born on September 6, 1943, in Great Bookham, Surrey, England. He co-founded Pink Floyd in 1965, initially as a psychedelic rock band that quickly evolved into a cornerstone of the progressive rock movement. By the time of their seminal albums, Waters had taken on a pivotal role as the primary lyricist, concept creator, and driving force behind the band's artistic direction.

The Evolution of Waters' Contributions
