Overview of the Samguk Sagi and Its Historical Importance

The Samguk Sagi, meaning "History of the Three Kingdoms," is a foundational historical chronicle that documents the political, cultural, and social developments of Korea's Three Kingdoms period: Goguryeo, Baekje, and Silla. Compiled by the scholar Kim Busik in 1145 under the Goryeo dynasty, the text provides a detailed account of events from ancient times up to the 10th century. It is considered one of the most authoritative sources on early Korean history due to its comprehensive nature and the relative scarcity of other contemporary records.

Historical Context and Compilation

The Samguk Sagi was written during a period when Korea sought to consolidate its historical identity amidst political transitions and external threats. Kim Busik, a high-ranking official and historian, utilized various earlier sources, oral traditions, and Chinese historical records to compile the text. As a result, the Samguk Sagi is not only a historical record but also a reflection of the values and ideologies of its time.
